DANIYA's Introduction

DANIYA is a Technology and Systems Integrations company who provides products and services to its customers to reach their targets for sustainable growth, and also to facilitate their digital future with innovative solutions.

DANIYA has extensive experience, reliable partnerships and a cutting-edge approach and technology also, greatly enhances the competitiveness of their business models.

DANIYA makes strong partnership with world's leading technology companies from ITC, Telecoms, Defence & Security, R&D, Infrastructure Solutions domains, and delivers state of the art solutions.

DANIYA's Introduction

Our cooperation is not only with vendors but also with Enterprise and System Integration Partners where we join our forces together to deliver successful big programs. Fortunately, we were able to create an ecosystem where all parties can work within their expertise area and we connect the dots in between by our vast experience in the business.

DANIYA's corporate vision is to carry stakeholders towards the future in the MEA & SEA (Middle East and Africa & South East Asia) region with innovative technologies, solutions and services. Its corporate mission is to become an institution which uses the power derived from stakeholders for their own development; thus, provides reliable, innovative and directing technology, solutions and services, and henceforth creates added value for its customers and to maintain this position.

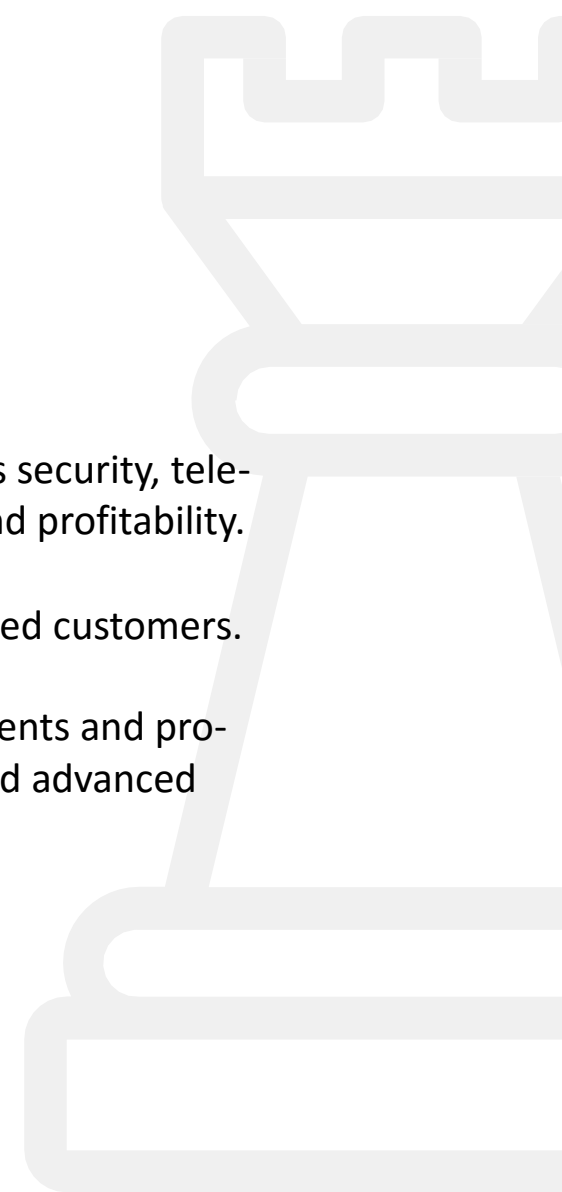

DANIYA's Strategy

Purpose: To be a leader in the all aspect of technology services industry such as security, tele-coms, constructions and power by providing enhanced services, relationship and profitability.

Vision: To provide quality services that exceeds the expectations of our esteemed customers.

Mission statement: To build long term relationships with our customers and clients and provide exceptional customer services by pursuing business through innovation and advanced technology.

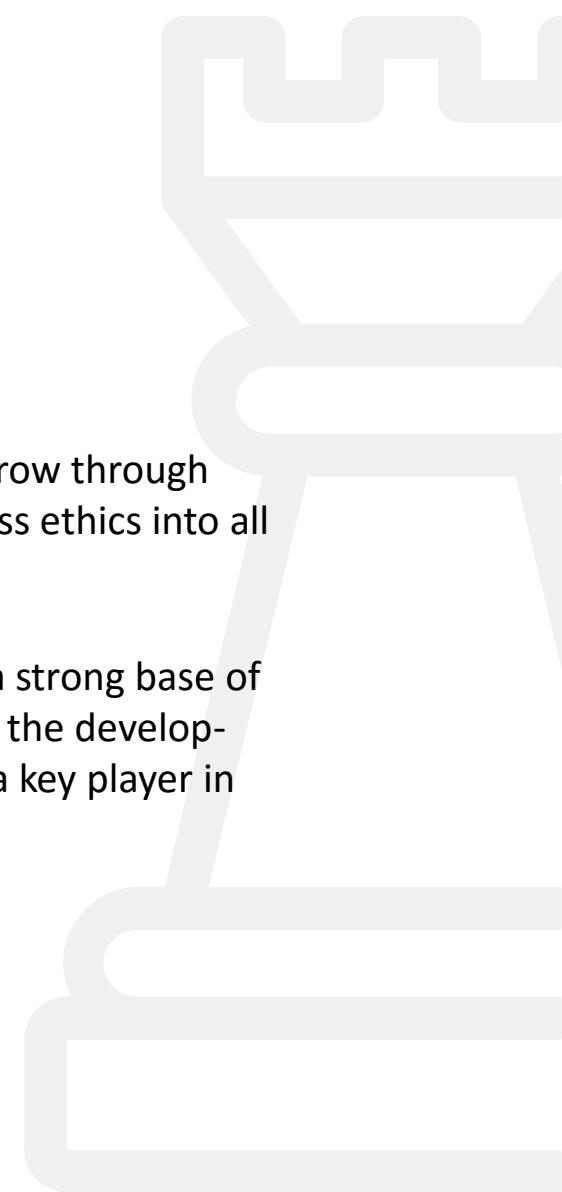

DANIYA's Strategy

Core values: We believe in treating our customers with respect and faith. We grow through creativity, invention and innovation. We integrate honesty, integrity and business ethics into all aspects of our business functioning

Goals: Regional expansion in the field of services and technology and develop a strong base of key customers. Increase the assets and investments of the company to support the development of services. To build good reputation in our field of services and become a key player in the industry.
